ABOUT US

The Quatreau® tap systems and HydreauBar™ bottling solution represent groundbreaking innovations in the water industry. In 2009, we launched the first-ever multifunction tap. Designed initially to deliver boiling chilled and sparkling purified water, over time the concept evolved to include an unfiltered supply of hot and cold water, transforming the design into a tap capable of dispensing five types of water.

These taps are available in various configurations, finishes, and options to meet the most diverse needs for residential and commercial applications. In addition to the advanced tap systems, the HydreauBar™, our restaurant water delivery system, serves as a comprehensive bottling solution for the hospitality industry, with the only bottle disinfecting system available in the market.

EXPERTS IN THE WATER INDUSTRY

Quatreau® is backed by Global Water Solutions, industry leader in water enhancement and movement with a global presence and infrastructure. The creation of adaptable, affordable solutions that meet the increasing need for safe and abundant drinking water is at the heart of the Quatreau® product offering, complemented by additional filtration products from GWS.

YOUR QUATREAU®

Multifunction Smart Taps - Boiling, Chilled, Sparkling, Hot & Cold - In An Instant

FOR HOME

Experience the convenience of instant boiling, chilled, and sparkling water at the touch of a button, perfect for the luxury kitchen and wet bar of the discerning homeowner.

FOR WORK

Your office, gym or lounge deserves better than a simple water cooler. Modernize your workspace and treat your employees and visitors with an all-in-one hydration station.

FOR YACHT

Greet the morning with the perfect cup of tea, thanks to instant boiling water. Add a splash of sparkling water to your evening cocktail while watching the sunset on your yacht's deck.

FOR HOSPITALITY

Upgrade your restaurant or café kitchen by adding a HydreauBar™ bottling system for quick, convenient, and abundant chilled and sparkling water, as well as an ozone-based built-in bottle sterilization system, reducing waste and increasing cost savings.

INSTANT BOILING

Indispensable for any kitchen: chosen by experts for convenience, safety and elegant design.

Everyday Uses: Tea, coffee, blanching, sterilizing, pre-heating, poaching, steaming and vegetable preparation.

Safe Handling: The Quatreau TouchTap™ and SmartTap™ boiling safety function requires a threestep touch sequence to activate and automatically cuts off after 60 seconds. The outer hoop of the tap remains cool to the touch to prevent scalding.

The Perfect Temperature: Tea and coffee are best prepared with water that has just come off the boil. Quatreau® taps deliver an ideal approximate temperature of 204°F/ 96°C, avoiding the spitting and sputtering associated with higher temperatures.

INSTANT CHILLED

Refreshingly chilled: save fridge space and reduce single-use plastics.

Indulge in the ultimate summer thirst-quencher: **crisp, filtered, chilled water direct from your tap,** ready to be complemented by citrus slices and mint for a refreshing addition to any outdoor meal.

Imagine indulging in crisp, refreshing chilled water whenever you desire – not only does it invigorate the senses, but it also promotes optimal health. Adequate hydration is essential for maintaining overall well-being, and Quatreau® ensures that staying hydrated is effortlessly integrated into your daily routine.

INSTANT SPARKLING

Unlimited sparkling water on tap from the convenience of your home.

Craft inventive cocktails and add effervescence with just a push of a button. Indulge in the exquisite pleasure of **champagne-style sparkling water** straight from your tap. Endless possibilities await you, your loved ones, and your guests. Choose a healthier option over sugary sodas by infusing diced fruits into sparkling water.

For a revitalizing smoothie with a bubbly twist, blend fresh fruit with an equal portion of sparkling water, ensuring a seamless fusion of flavors. Quickly mix the ingredients to concoct a refreshing smoothie **with a delightful effervescent touch**, ideal for rejuvenating your senses on a sunny day.

HOT & COLD TAP WATER

The perfect temperature every time!

Quatreau® saves water by dispensing mains tap water at the perfect pre-set temperature for rinsing and washing. Simply touch the lower left quadrant once.

No more fumbling or risking scalding your hands while trying to mix hot and cold water to find the right temperature.

For cold tap water, double-tap the same icon and out comes **moderately temperate water perfect for washing hands and dishes**.

quatreau TouchTap™

Elevate your kitchen with the epitome of sophistication and functionality: the Quatreau TouchTap™. Recognized by Better Homes and Gardens as one of the "30 Most Innovative Products," this tap redefines convenience with its groundbreaking features.

Imagine a tap that goes beyond the ordinary, **offering not just hot and cold water, but also filtered instant boiling, chilled, and sparkling water – all at your fingertips.** The Quatreau TouchTap™ achieves this seamlessly, thanks to its touch pad technology, setting a new standard for intelligent taps.

With its sleek design and advanced multifunctionality, the Quatreau TouchTap™ stands out as a leader in the market. Its intuitive touchscreen control panel simplifies water dispensing, while built-in safety features and thermostatically controlled temperatures ensure peace of mind with every use. Plus, with the **highest capacity in the industry,** it's ready to meet the demands of even the busiest households.

Quatreau TouchTap™ is more than just a water dispenser – it's a game-changer for your kitchen. **Say goodbye to cumbersome kettles and plastic bottled water,** and hello to effortless dishwashing and speedy food and drink preparation.

Upgrade your kitchen with the Quatreau TouchTap™ and experience a new level of convenience and luxury every day.

quatreau SmartTap™

Introducing the Quatreau SmartTap™ – the **ultimate solution for venues like bars, lounges, gyms, and more,** where versatility and convenience are paramount. Whether you're catering to thirsty patrons or health-conscious gym-goers, the SmartTap™ delivers a range of filtered water options with unmatched efficiency and reliability.

Customizable to suit your needs, the SmartTap™ can be configured with two or three buttons, allowing users to **dispense their choice of boiling, chilled, and/or sparkling water – all from a single tap.** And with the option to include or exclude a drip tray, it seamlessly integrates into any environment, maintaining a sleek and tidy appearance.

Built to withstand the rigors of high-traffic areas, the SmartTap™ sets the standard for durability and performance. Its robust design, coupled with the lowest energy consumption and most effective insulation in the market, ensures unparalleled reliability and efficiency, even in the busiest of settings.

Experience the future of water dispensing with the Quatreau SmartTap™ – where versatility meets reliability, and every pour is a testament to innovation and quality.

CHILLED SPARKLING WASH/DRAIN

SUSTAINABILITY

Quatreau® is a beacon of sustainability in the realm of modern kitchen appliances. Firstly, it eradicates the need for plastic and glass bottles, significantly reducing waste and lessening the burden on landfills and recycling facilities.

With Quatreau®, the days of cluttered pantries and overflowing recycling bins are a thing of the past, as it saves valuable space by consolidating water provision into a single, sleek tap.

Moreover, its convenience translates into tangible emissions and cost savings, as it eliminates the need for frequent trips to the store for bottled water or cumbersome bottle service deliveries. Furthermore, its energy-efficient design ensures that it consumes significantly less energy compared to conventional methods of boiling water in a kettle or microwave, thus further reducing its carbon footprint.

In essence, Quatreau® exemplifies sustainability in action, offering a seamless blend of convenience, efficiency, and environmental stewardship.

FEATURES

- Tap made from solid 316 stainless steel for optimal corrosion resistance
- Only system compatible with purified reverse osmosis (RO) water*
- Easy-to-use push-button control or touch panel
- Low energy consumption
- Fits into a standard 600 mm (24”) cabinet
- Highly effective insulation
- Most robust and reliable system available
- Leak detection on the boiler is standard
- Ventilation duct included for kick space installation

***Reverse Osmosis system sold separately**

- 20 L (85 cups) / hr sparkling at 4-5°C (41-45°F)
- Up to 100L (25 gal) of champagne-style sparkling water per 1 liter CO_2 cylinder

HydreauBar™

- Ozone-based sterilisation and refilling of up to 100 bottles per hour

ADD INSTANT BOILING, SPARKLING AND CHILLED WATER AT THE TOUCH OF A BUTTON!

VOICES OF SATISFACTION: WHAT OUR CUSTOMERS ARE RAVING ABOUT

"When designing our new kitchen, we knew we wanted something special to set it apart while adding to the function.
I'm a huge fan of sparkling water but constantly purchasing bottles was a big expense and headache. So, I researched how to add that feature to our kitchen. That's when I found the Quatreau SmartTap. I didn't know anyone who had one but the reviews were good so we decided to give it a try.

We now enjoy chilled filtered water and sparkling water on demand. Another added feature was instant hot water. Initially we didn't really care to have the extra feature but now that we have it we use it all the time. We even set up a hot chocolate bar next to the faucet for use during the colder months! Plus, guests are always impressed by the faucet and comment on how great it is.

We save money by not purchasing bottled still and sparkling water while having an awesome kitchen feature that always seems to be a conversation starter!"
